## Situation Report

### Severe Storms

April 7, 2006 4pm

### Storms of March 30 - April 3, 2006 FEMA-1635-DR

**PLEASE NOTE**—Individuals needing assistance should first contact the **FEMA** Help Line to Register – **1-800-621-FEMA (3362)**. The line is staffed from 8am-6pm, 7 days/week.

As of 4:30 PM on April 7, 2006, SEMA's hours of operation will be from 7:30 am through 4:30 pm, Monday through Friday. The SEMA Duty Officer will be available during the hours SEMA is not in operation.

#### Situation:

On April 5, 2006, Governor Blunt and President George W. Bush announced that Pemiscot County has been declared a Federal Disaster area for Individual Assistance (IA) programs (assistance for individuals, homes, and businesses). Three counties (Andrew, Pemiscot, and Pettis) have been designated for Public Assistance (PA) programs (Categories A & B) Category A is for Debris Removal and Category B is for Emergency Protective Measures for the Storms that hit the above-captioned counties in a period from March 30, 2006 through and including April 3, 2006.

Sunday April 2, 2006, several lines of severe storms and tornadoes swept across Missouri. Damage was centered in East Central Missouri and Southeast Missouri. These storms went on to hit Dyer County, Tennessee cutting a 25-mile swath. Tennessee officials announced that they discovered an additional victim raising the total for this storm to 28 deaths. A total of 28 deaths were recorded in the Central U.S., three of the 28 were in Missouri. Governor Blunt signed two executive orders on Monday (April 3, 2006) that will allow SEMA and other State resources (including Missouri National Guard Assets) to be used in response and recovery operations in Southeast Missouri. Governor Blunt directed the waiving of trip permits for registration and fuel be waived for commercial motor carriers engaged in intrastate disaster relief efforts in the counties of Andrew, Atchison, Cooper, Dunklin, Holt, Marion, Monroe, New Madrid, Pemiscot, Pettis, Ralls, Shelby, Stoddard, St. Charles and St. Louis. The executive order also suspends the federal regulatory requirements relating to drivers hours of service requirements. This will allow a more rapid acquisition of the necessary transportation resources to assist our citizens.

- 3 Confirmed Deaths 1 in Circle City (Stoddard County), 1 in Braggadocio (Pemiscot County), 1 in Castlewood State Park near Ballwin, Mo (St. Louis County), 26 injured and additional injuries are expected to be reported.
- Pemiscot County (Caruthersville) reported that their primary issues continue to be security. Although they had a quiet night in Caruthersville, local officials have a concern for public safety as the Disaster Recovery Center opens (The DRC is scheduled to open tomorrow at the American Legion Hall). City water and wastewater services have been restored and the boil water order was lifted this morning when tests from DNR showed the water passed their standards for safety. Potable water supplies are adequate for the weekend. Department of Social Services will make arrangements for a half load of water from Conway, Arkansas to be delivered to

Caruthersville. The electric utility has about 384 people working to restore power to the City and they (Ameren UE) have set over 400 new poles since Monday. City officials stated that they were doing a good job under difficult circumstances. Debris removal is going well, they expect to be into a contractual relation with licensed waste haulers very soon, ending the volunteer cleanup. The Mayor indicated that all roads and streets in the City were clear of debris and were passable. Feeding operations “seem to be fine, and should be all right through the weekend” the Mayor stated. Shelter operations were going well...they had 19 or 20 people at the Community Center last night (April 6, 2006). All Fire assets from Fire Mutual Aid Region C were released at 9:00 a.m. this morning. The Fire Chief stated that local crews from the Cities of Kennett, Dexter, and Hayti would help out over the weekend.

The SAVE Coalition (Structural Assessment and Visual Evaluation), which is comprised of volunteer engineers and architects to help determine the habitability of structures in Pemiscot County inspected and tagged 147 structures in Caruthersville, Wednesday, April 5, 2006. They inspected 96 buildings in Braggadocio. SAVE Coalition reports that 48 structures were inspected in Dunklin County on Thursday, April 6, 2006. SAVE Inspections in Caruthersville reached 533, which the SAVE Coordinator estimates is about half of the structures that need to be inspected. They will continue today (Friday, April 07, 2006) and tomorrow (Saturday, April 8, 2006), and try to complete the work over the weekend.
